	10/24/10 19:13 CST		0	Hail (0.88 in)

Nickel size hail was reported in Berryville.

Severe thunderstorms developed along and east of Interstate 35 in association with a dryline across north Texas. The storms produced large amounts of hail which damaged hundreds, if not thousands, of roofs. In Hunt County alone, emergency officials estimated nearly 500 homes had some form of roof damage. In addition, a strong EF2 tornado moved through Rice damaging the new intermediate school, several homes, derailing train cars and overturning vehicles on Interstate 45. A second EF0 tornado damaged 10 homes near Lone Oak.

On October 24, 2010, a strong EF2 tornado struck the southern end of the town of Rice damaging several homes, derailing train cars, damaging a school and nearby athletic fields, and overturning cars on Interstate 45. The tornado carved a 6.5 mile path with maximum winds near 135 mph. Four people were injured during the tornado, and all were in vehicles on the interstate. Rice is located approximately 40 miles south-southeast of Dallas. The picture was taken by Eric Meyers, the emergency manager of Navarro County, who witnessed the tornado while traveling on the interstate. At the time of the picture, the tornado was approaching the school.
